“The City” where the Queen bows to “The Black Nobility”

Inside of London, England the “The City” is a city inside London where all the evil ones called the “The Black Nobility” reign.
Rothschild Bank of England, the illuminati, and so on.
Even the Queen when she wants to visit this small city has to bow down to
the Ruler ofthe city!
The QUEEN has to bow down and ASK PERMISSION to enter.
The Rothschild-controlled Bank of England, Lloyd’s underwriters, London Stock Exchange, leading international trading concerns, as well as headquarters of the newspaper and publishing world are located here. The small clique who rule the City dictate to the British Parliament, Prime Minister and Cabinet.
All the other colonies like India, Egypt, Bermuda, Malta, Cyprus, the colonies in Central Africa, Singapore, Hong Kong and Gibraltar comprised the hidden empire that belonged to the Crown of the City of London. These were not under British rule. Parliament had no authority over them. They were private enterprise, owned and ruled by The Crown of the City of London whose representatives had the power of life or death over the people.
(More Info)

England is in fact a financial oligarchy run by the “Crown” which refers to the “City of London” not the Queen. The City of London is run by the Bank of England, a private corporation. The square-mile-large City is a sovereign state located in the heart of greater London. As the “Vatican of the financial world,” the City is not subject to British law.
THE CITY IS NOT SUBJECT TO BRITISH LAW!

Banking developed in Babylon. Once relative values were placed on commodities (like cattle, grains or craft), silver and gold became accepted as a store of values and convenient means of exchange. In order to guarantee the safety of their wealth, Nimrod, the priest-king, offered the temple vaults and protection of the gods as security for the treasure of his citizens. Observing that the bulk of deposits remained in the vaults at any one time, he developed the lucrative concept of fractional reserve banking.

This device was the key to unparalleled prosperity and unbounded influence. Nimrod explained and franchised his scheme to certain trusted commoners who were licensed to take deposits and lend gold from the temple vaults at 20% interest. Nimrod’s next innovation was to issue clay tablet receipts in the value of the gold, and sealed with the high priest’s signet as legal tender. A precursor of today’s paper money. Safer and easier to carry than bullion, it quickly gained acceptance.

It is this same debt-money system that the merchants of Venice use to rule and impoverish the world today under governance of the Babylonian Talmud with its authoritarian dictation on everything from their immorality to their trade practices (The Babylonian Woe, David Astle; Descent into Slavery, Des Griffin, pp266-270).

More here.

We know this evil came from Babylon on this side of the Flood and trace Babylonian rule and religion to Pergamos, thence to Imperial and ultimately Papal Rome. It appears that the Illuminati and the Black Nobility have as their public face, the Bilderbergers, where they share common ground with their rivals, the Vatican, and the Freemasons, and lesser groups like the CFR, and Trilateralists.
The Black Nobility and Illuminati are the same — the Rothschild are head of them.
It is not capitalism, or the peoples of our once democratic, once Christian, Western world which has deceived the people of Eastern Europe, but the Zionist moneyed elite who control us. They are the invisible administration in Britain, the USA, Russia and Israel. A part of Satan's Millennium end-game is to resurrect Communism in its revival of hatred against the world they imagine brought their ruin. They do not realize that Communism was always a tool of the mega-rich elites, designed to enslave them and destroy itself.

> In fact, the World War never ceased; it was transformed into the so-called Cold War, whose casualties by way of massacre, famine and deportations run in the millions. In Vietnam, the bombing rate massively exceeded for many months that of any stage of the Second World War. This continuing devastation of the world was sustained primarily by the industrial and productive power of the USA, which appeared in the contest as the opponent of the USSR, although both countries are controlled by the same International Bankers.
>
> The agents of the Illuminati increasingly control the governments of the more significant countries of the world. The conditions for successive and major crises are created and maintained. The means to deal with each crisis as it arises are in the hands of Zionist Jews,

directly or indirectly: and their use granted only to the highest bidder in the surrender of power or the guarantee of its use in the interests of Jewry.

In times past, control of money, gold and credit was the primary weapon of these people. But the money myth has been exploded, and legal control of raw materials is essential to the pursuit of this policy to a final and successful issue. Genuine unfettered private property of any description is absolutely fatal to it.

Thanks to their racial qualities, the Khazars are the strategists and directors of the World Revolutionary Movement from which they, almost alone derive advantage. However the bid for world power has attracted to its inner direction, evil men lusting for power from around the world, forming a directorship of quite diverse origins.

World War III is to be fomented by using the differences agents of the Illuminati stir up between Political Zionists and the leaders of the Moslem world. This war is to be directed in such a manner that Islam and Political Zionism will destroy themselves, while at the same time the remaining nations, once more divided against each other on this issue, will be forced to fight themselves into a state of complete physical, mental, spiritual and economic exhaustion.

Adam Weishaupt was succeeded as leader of the World Revolutionary Movement in turn by Moses Holbrook, Pike, Mazzini, Lemmi, Lenin, Manuilsky and Alister Crowley. The revolutionary activities of all these men were financed by British, French, German and American International Bankers. Like Nimrod's usurers, and the Money-Changers of Christ's day, today's International Bankers are tools or agents of the Illuminati.

On August 15, 1871, Pike told Mazzini that after World War III is ended, the aspirants to undisputed world domination will provoke the greatest social cataclysm the world has ever known:- "We shall unleash the Nihilists (who oppose all constitutional authority, religious and moral principles) and Atheists, and we shall provoke a formidable social cataclysm which in all its horror will show clearly to the nations the effect of absolute atheism, origin of savagery and of the most bloody turmoil. Then everywhere, the citizens, obliged to defend themselves against the world minority of revolutionaries, will exterminate those destroyers of civilization, and the multitude, disillusioned with Christianity, whose deistic spirits will be from that moment without direction, anxious for an ideal, but without knowing where to render its adoration, will receive the true light through the universal manifestation of the pure doctrine of Lucifer, brought finally out in the public view, a manifestation which will result from the general reactionary movement which will follow the destruction of Christianity and atheism, both conquered and exterminated at the same time."

That will be the third and last of the three planned revolutions, the Russian and Chinese Revolutions were the first and second. The First and Second World Wars so carefully planned in 1871, happened precisely according to the script. Christendom is now destitute of the faith as foretold in Revelation 3:17-20 and II Timothy 3-4, ready for the World War III and the final revolution.

God has sent us a prophet with warning and a way of escape before World War III can materialize. God will intervene to cause a great upset in nature, marking the end of the Gentile dispensation, for the First Resurrection and manifestation of the sons of God.

We who know the plan of the enemy should know what to expect as he prepares for World War III between the Political Zionists and the Muslim world. This conflict will be precipitated by an earthquake that sinks Los Angeles and splits the Mount of Olives. The Moslems will not want to

see the Dome of the Rock (which will be destroyed by the earthquake) replaced with a new Jewish Temple. Communism is not dead, and according to Daniel, Russia will support this Muslim attack on Jerusalem. Simultaneously Russian forces will attack and invade mainland USA.

This will unite the world's religions in a covenant for peace thus forcing soldiers on all sides to lay down their arms and go home. The world's religions will nominate the Pope of Rome President of a NWO organized through the UN. I believe such an agreement exists between the Black Nobility and the Vatican. I have read that Pope John Paul II is a Khazar, so it's no surprise that under his reign, the Vatican recognized the State of Israel.

Banking

Meanwhile, let's examine what is happening in the world today as the invisible government positions their Zionist and Moslem pawns for the confrontation according to strategy drawn 130 years ago.

The world banking and financial system is bankrupt. It is a secret society of intrigue, corruption, murder, drug-running and money-laundering, arms-smuggling, international terrorism, genocide, and debt on a magnitude that is beyond comprehension.

Thirteen families are the majority shareholders who control policy making and decisions of central banks in the world's hard currency leading nations. Central Banks like the Federal Reserve Corporation are privately owned by the International Bankers. So is the World Bank, Bank of International Settlements and International Monetary Fund. They control the Reserve Bank of Australia and the Bank of England and all of them are as interdependent as a house of cards.

They control the banks which practice fractional reserve banking – sometimes without any reserve. This legal manipulation permits the banks to loan 20:1 against their deposits.

By way of illustration:-

Against a deposit of $1000 the bank can loan $950. This $950 can then be deposited in another branch or bank from which $902.50 may be loaned. Under the fractional reserve banking system, this can continue ad infinitum, till the $1000 deposit has been inflated to in excess of $20,000.00. And more, if we include "interest" on the money borrowed.

The increased money supply in the books of the banks is a debit to the system. But as there has been no actual increase in the issue of currency as a credit there is insufficient money in circulation to repay the debt, resulting in depression.

Let's examine a recent international banking scam:-

The worthless US dollar is the standard against which all currency is measured. The International Bankers coerced Arab oil producers to denominate all transactions in US dollars, thereby creating an artificial market and artificial strength for this currency. Over the years, the banks have cheated the Arab oil producing countries out of billions of dollars with their dishonest schemes.

Nigerian light crude is the standard against which the world's oil is priced. In the early 1970′s, the Prime Minister of Nigeria was bribed US$50 million to more than double the price of light crude.

All OPEC buyers, including the United States, were prepared to pay higher oil prices, so long as

all Middle Eastern nations supported the USA by investing the oil revenues into 30-year certificates of deposit in certain US banks. (The banks and the oil companies are owned by the same people).

These banks could then loan these windfall deposits 20 times over, compounding their debit base, whilst all that was due to the Arabs was interest on the principal they deposited. Some, for religious reasons could not accept interest, and would have to wait 30-years to receive their principal when the CD's matured.

Arab money gained from oil price manipulation, and increased sales turnover at the pumps, and which came from your pockets, returned to the banks at 20:1 compound. Of course, the Arabs received world anger over the price increases. Since they had secured a source of 30-year funds, the banks were now able to lend to the Third World nations.

The International Bankers determined these newly independent Third World nations would borrow large sums, and being inexperienced in government and administration, squander those funds and wind-up in bankruptcy.

In order to distance themselves from their crime, the banks loaned this money through intermediaries and later sold their interest in the CD's to third parties whilst a subsidiary company borrowed the proceeds to purchase the assets and liabilities of these banks.

The assets they were buying were the loans made to debtor nations, intended to be bankrupted. The liabilities they were buying were Arab CD's.

The 30-year CD's are almost mature. When they seek to redeem them, the Arabs will find that the International Bankers have sold them at a discount, and that the current holding companies – unrelated to the big banks – are insolvent. Therefore the Muslim nations are potentially bankrupt now. It's as if the International Bankers are following Albert Pike's plans to the letter.

At this point, Arab assets will have to be liquidated and sales of real estate in the US and UK, shares and bonds, will cause massive deflation in the West and global unemployment. Prime farmland will be insufficient collateral to finance cultivation, and famine will result. At this juncture the bankers will come to rescue the world they now own by replacing currency with a debit card, in exchange for perpetual consignment of natural resources.

This is happening now through debt for nature, and debt for equity swaps, World Heritage Listings, etc. A fractional reserve leverage of 5% collateral against Third World debt will potentially declare the world bankrupt and the International Bankers would foreclose.

The International Bankers are now preparing to implode the present monetary system and legal control of raw materials is essential to their world hegemony. Genuine unfettered ownership of property is anathema to their plan.

The unmitigated criminal financial war against Asian economies by the global financial cabal's hedge funds has drawn Asians closer together against a common enemy. Those hedge funds are presently betting on the decline of gold, to encourage hoarders to disinvest themselves and further depress the gold price. But the hedge funds are over-exposed, and can be wiped out.

At last December's Islamic Summit, Iran's Industry Minister, Mr. Shafei said he considers the creation of an Islamic Common Market imperative for survival. The criminal actions of the cartels have made physical production of goods almost impossible and are driving these nations together. If Russia, also betrayed by the West since its capitulation under Mikhael Gorbachev,

could be influenced to reduce or stop the export of gold production, its price would rise as current demand for gold is at record levels. And the Arab world might even create a stable gold-backed currency in which oil sales are denominated. This could destroy the power of the International Bankers.

Russian and Chinese leaders have met with Iranian, Iraqi, Syrian, Libyan, North Korean, Chechnyan, Serbian and Sudanese leaders, to discuss an alliance against NATO (The Strategy, May, 1998, p4). It was stated (in Pakistan's "Nation", April 14, 1998), other nations like Saudi Arabia and Kuwait may be secretly joining. The West is driving Muslim nations like Malaysia and Indonesia closer together – economically and politically with Russia. Such an alliance with the Moslems was foretold in Ezekiel 38:1-6 and Revelation 16:12.

Progressive deregulation of financial markets in Asia allowed the currency speculators to dictate financial and economic policy to their banks, devaluing the currencies, and when the International Bankers pulled the rug from under them, surrogates picked-up their assets at fire sale prices.

In October, 1997, OPEC oil production quotas were increased. Until recently, oil prices were at their lowest since the 1970′s. This price fall was fueled by the collapse of energy demand from Asia. As a consequence, developing nations like Indonesia, Nigeria, Iran or Venezuela that depend upon oil revenues for budget allocations, would have to radically amend their budgets.

Oil revenues threaten to hasten the next dilemma for Russian State finances as tax revenues from Oil production form the cornerstone of what remains of State revenues. Russia's oil is priced against North Sea Brent, which is now under US$15 a barrel. And guess who holds Russian Treasury Bills? By collapsing markets, International bankers can obtain control over the assets and wealth of nations, and enslave their citizens.

The old families in "The City" and power elites have been moving their fortunes from paper instruments into control of the crucial commodities of food, fuel, and minerals essential to mankind, and which they regard as a hedge to see them through the coming crash.

As Christians we recognize something had to happen to double-cross the citizens of Russia who are not Spiritual, or who have not been presented with the Message of Malachi 4:5-6. God allowed Communism to raise up to destroy the false Church. Communism is the work of the synagogue of Satan who pretend to be Jews, but are not.

Communism is not dead. It is more that just a political system, it is a spirit: the spirit of egalitarianism or rebellion – "people's rights", the spirit of lawlessness that works in the children of disobedience. Jesus called it "Laodicea". The world is soaked in this spirit, especially in the West. It saturates our governments and bureaucracies, our institutes of learning for all ages, and our denominational churches.

The Illuminati are using the Russian and East European people as their pawns today as they used the Jews in the days of Hitler and Stalin (and continue to use them – in particular the few remaining seed of Abraham, Isaac, and Jacob who have returned to the Land of their Covenant and who serve the Law).

It is not capitalism, or the peoples of our once democratic, once Christian, Western world which has deceived the people of Eastern Europe, but the Zionist moneyed elite who control us. They are the invisible administration in Britain, the USA, Russia and Israel. A part of Satan's Millennium end-game is to resurrect Communism in its revival of hatred against the world they

imagine brought their ruin. They do not realize that Communism was always a tool of the mega-rich elites, designed to enslave them and destroy itself.

In 1950, one-time Russian delegate to the UN, Dimitri Manuilsky, spoke of "launching the most spectacular peace movement on record" with the object of "putting the bourgeoisie to sleep", so that the final take-over of the whole world by the Communists would succeed through the element of surprise.

This "peace offensive" was launched in 1956 by Khrushchev although it passed largely unnoticed because of the dramatic diversion provided by de-Stalinisation. The vital importance of Khrushchev's speech at the Twentieth Party Congress was that it inaugurated the strategy of "peaceful co-existence" as the means of achieving world-wide Communist dictatorship – an objective which clearly could not be gained by a conventional military confrontation.

Detente and ("The City's" asset), Mikhael Gorbechev's "Glassnost" and "Perestroika" won home support for the apparent abandonment of Communism and break-up of the Soviet Socialist Republic. This enabled the face of the West, in the form of the "International Bankers" who designed and financed, and are the real government of International Communism, to disinvest Russia of her industry and her resources and bankrupt her with debt. Soon the Russian bear will wake up to discover she has been robbed of her cubs. Soon the world will shout, "Peace, peace, but there will be no peace". For Communism will revive, and shortly after the earthquake sinks Los Angeles, Russia will try to exact revenge upon those she sees as raping her when she opened up her heart with the West for friendship and co-existence.

Russia will attack and invade the US. The Pope will send them home and establish the NWO. Then the strange Caribou-like creature of Brother Branham's vision, representing America, the image to Rome in the natural/political realm, will rule with Rome for precisely forty-two months. Russia will then attack America USA for a second time, and annihilate the whole of the continent. bb980304.htm

If not please tell the fact why you need to fund too many activities or distribution sum of money for a special purpose?

Why do you think this world need to be manage by the funding system that not justice to all of us that not taking any part to create the problem?

I do not have any intention to be with your agenda by keep asking the questions.

Why must all the judicious people have to study to your university when the differences on money will make many of us a debtor? Stupidly among us don't have to be a debtor for all their life. Human suffering cannot have an idea when they just want to listen or to let people know they have a qualification from Oxford or others university from England/America/Australia/Al- Azhar.

Stop relate me with Liverpool or Manchester or Chelsea or Arsenal.

This make me feel sick!

How we help poor people?

By manipulate after domination them?

Thank You.
